

Kevin Lafferty

**Sr. VP of Exploration and Production, Devon Energy
CPE Advisory Board Member and Alumni**

Kevin Lafferty is senior vice president of exploration and production. He oversees environment, health and safety, IT, data and analytics, strategic planning, marketing and supply chain. He previously served in roles of increasing responsibility. Prior to joining Devon in 2009, Lafferty worked for ConocoPhillips and Enbridge Inc. He holds a bachelor's degree in chemical engineering from the University of Kansas. Lafferty serves on the Oklahoma City Ballet board, the American Petroleum Institute's Market Development Committee and the University of Kansas Department of Chemical and Petroleum Engineering advisory board.

About Devon Energy

Devon Energy Corporation is a leading independent oil and natural gas exploration and production company. Devon's operations are focused onshore in the United States and Canada.

The company's portfolio of oil and gas properties provides stable, environmentally responsible production and a platform for future growth. Devon has more than doubled its onshore North American oil production since 2011. Today the company produces approximately 250,000 barrels a day and has a deep inventory of development opportunities to deliver future oil growth. Devon also produces about 1.2 billion cubic feet of natural gas a day and about 100,000 barrels of natural gas liquids per day.
